We focus on one key monthly theme and Bible verse. Lessons are designed around a large group/small group model (check Tiers for details). Each week, there are 7 key segments within each lesson that help unpack the monthly theme. (more details in Training Tab for you). Small groups are age-appropriate in design to engage, provoke discovery, and conversation. Each document is completely customizable to align with your ministry's unique model, voice, and context.

FAQ

Are there videos?

Orange Kids lessons are written to be presented live. If you prefer a video presentation of the lessons (or if you program multiple service times), we highly recommend the Media Package. This is an additional purchase to the license that adds creative value and resources to help you engage kids using several different forms of media (video countdown, transition music, customizable art files, pre-built presentation files, etc). The lesson teaching videos are high-quality, age-appropriate, and engaging to help clearly present the biblical concept.

Once your transaction has been confirmed and processed, you will have access within 15 minutes to log in to our curriculum download site and navigate the files.
